2011.

*Violence in God's Name: Christian and Muslim Relations  
in Nigeria*, by Christian Van Gorder, 2012.

### *Series Editor's Note*

The study of the African world is multidimensional and has gained scholarly respect in recent time. The primary purpose of this series is to provide an outlet for new ideas, or reinterpretation of old ideas with the aim of making information easily accessible to all. Each volume is unique in content and coverage. It is structured to meet classroom need and scholarly research. It is in view of this that varied topics about Africa, the people of African descent, and issues relating to Africa are welcome for consideration. More so, Africa, Africans, and people of African descent remain an integral part of the wider world. Manuscripts accepted for publication are peer reviewed for scholarship and integrity. Enjoy this volume and share with friends what you gained reading it.
